🔍 Search

Material icons are beautifully crafted, delightful, and easy to use in your web, Android, and iOS projects. Learn more about material design and our process for making these icons in the [system icons section](#) of the [material design guidelines](#).

Icon Font

The best way to use these icons on the web is with our icon web font. It's lightweight, easy to use, and hosted by Google Web Fonts. Learn how to use font-based icons in our [developer guide](#).

Fit for Use

A variety of sizes and densities can be downloaded from this site. Our icon set is also available as a [git repository](#), making it even easier for developers to customize, share, and re-use.

Open Source

Feel free to use, remix, and re-share them. The icons are available under the [CC-BY](#) attribution in your app's "about" screen. The only thing we ask is that you not r
